Full Stack Development | Web Technologies | Cloud Computing | DBMS | Java & Python

PROFESSIONAL SUMMARY

Motivated and detail-oriented Computer Science Engineering student with strong foundations in web development, problem-solving, and software development practices. Experienced in developing web-based applications and collaborating on projects involving AI, blockchain, and secure systems. Skilled in frontend and backend technologies, debugging, testing, and version control using GitHub. Strong analytical mindset with the ability to manage tasks efficiently, adapt quickly, and deliver quality results in collaborative environments.

CORE COMPETENCIES

- | | | |
|-------------------------------|----------------------|-------------------------------|
| • Java, Python, JavaScript | • React.js & Node.js | • HTML5 & CSS3 |
| • SQL & DBMS | • Cloud Computing | • Git & GitHub |
| • Object-Oriented Programming | • VS Code & IDEs | • Debugging & Problem Solving |
| • Team Collaboration | | |

INTERNSHIP EXPERIENCE

Full Stack Development Intern

Recent

Tech Solutions, Bengaluru

- Worked on developing and improving responsive web applications using frontend and backend technologies.
- Assisted in feature implementation, debugging, testing, and maintaining application workflows while collaborating with project teams in a real-time development environment.
- Utilized key technologies and tools including Java, Python, JavaScript, React.js, Node.js, SQL, DBMS, HTML5, CSS3, Git, GitHub, VS Code, and problem solving.

EDUCATION

B.E. Computer Science & Engineering

CGPA: 9.0

Sri Venkateshwara College of Engineering, Bengaluru

PUC (Pre-University Course)

Score: 96%

Vikram Independent PU College

SSLC (Secondary School Leaving Certificate)

Score: 93%

Vikram English Medium High School

ACADEMIC PROJECTS

Voting Management System

- Developed a secure web application focused on authentication, workflow management, and accurate real-time processing.

AI Chatbot for Classroom Monitoring

- Built an AI-powered chatbot to automate classroom monitoring and improve task management efficiency.

Decentralized Voting Management System

- Designed a blockchain-based voting platform emphasizing transparency, security, and accountability.

Heart Disease Prediction Using Machine Learning

- Developed a machine learning model using healthcare datasets and predictive algorithms for accurate analysis.

CERTIFICATIONS

- Explore Machine Learning Using Python – Infosys
- AWS Cloud Practitioner – AWS
- Introduction to Cloud Computing – IBM (Coursera)
- Introduction to Networking and Cloud Computing – Microsoft (Coursera)

ADDITIONAL INFORMATION

Languages Known: English, Kannada, Telugu, Hindi

Areas of Interest: Full Stack Development, Software Engineering, Cloud Computing, Database Management Systems

Strengths: Attention to detail, ownership mindset, adaptability, and collaborative problem-solving
